Inpatient Admission Pre-Certification Program

Pre-Admission Certification is designed to help you receive quality cost effective medical care.

Pre-Certification does not guarantee the payment of benefits for your inpatient admission. Each claim is subject to medical policy review in accordance with the exclusions and limitations contained in the Policy, as well as a review of eligibility, adherence to notification guidelines, and benefit coverage under the Student Health Insurance Plan.

If you do not secure pre-certification for non-emergency inpatient admissions or provide notification for emergency admissions, your Covered Medical Expenses will be subject to a \$200 per admission Deductible. Please note that the Deductible associated with failure to obtain the required pre-certification of an Inpatient Hospital Admission does not apply towards meeting the annual Non-Preferred Deductible, or the annual Out-of-Pocket Maximum.

To be appropriate, the service or supply must:

- be care or treatment, as likely to produce a significant positive outcome as, and no more likely to produce a negative outcome than, any alternative service or supply, both as to the disease or injury involved and the person's overall health condition;
- be a diagnostic procedure, indicated by the health status of the person and be as likely to result in information that could affect the course of treatment as, and no more likely to produce a negative outcome than, any alternative service or supply, both as to the disease or injury involved and the person's overall health condition; and
- as to diagnosis, care, and treatment be no more costly (taking into account all health expenses incurred in connection with the service or supply) than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances, Aetna will take into consideration:

- information provided on the affected person's health status;
 - reports in peer reviewed medical literature;
 - reports and guidelines published by nationally recognized healthcare organizations that include supporting scientific data;
 - generally recognized professional standards of safety and effectiveness in the United States for diagnosis, care, or treatment;
 - the opinion of health professionals in the generally recognized health specialty involved; and
 - any other relevant information brought to Aetna's attention.
- in no event will the following services or supplies be considered to be necessary:
- those that do not require the technical skills of a medical, a mental health, or a dental professional;
 - or
 - those furnished mainly for the personal comfort or convenience of the person, any person who cares for them, any person who is part of their family, any healthcare provider or health care facility; or

- those furnished solely because the person is an inpatient on any day on which the person's disease or Injury could safely and adequately be diagnosed or treated while not confined; or
- those furnished solely because of the setting if the service or supply could safely and adequately be furnished in a physician's or a dentist's office or other less costly setting.

Negotiated Charge: The maximum charge a Preferred Care Provider has agreed to make as to any service or supply for the purpose of the benefits under this Plan.

Non-Preferred Care: A health care service or supply furnished by a health care provider that is not a Preferred Care Provider; if, as determined by Aetna; (a) the service or supply could have been provided by a Preferred Care Provider; and (b) the provider is of a type that falls into one or more of the categories of providers listed in the Directory.

Non-Preferred Care Provider (or Non-Preferred Provider): A health care provider that has not contracted to furnish services or supplies at a Negotiated Charge.

Non-Preferred Pharmacy: A Pharmacy which is not party to a contract with Aetna, or a Pharmacy which is party to such a contract but does not dispense Prescription Drugs in accordance with its terms.

Reasonable Charge: Only that part of a charge which is reasonable is covered. The reasonable charge for a service or supply is the lowest of:

- The provider's usual charge for furnishing it; and
- The charge Aetna determines to be appropriate; based on factors such as the cost of providing the same or a similar service or supply and the manner in which charges for the service or supply are made; and
- The charge Aetna determines to be the prevailing charge level made for it in the geographic area where it is furnished.

In some circumstances; Aetna may have an agreement; either directly or indirectly through a third party; with a provider which sets the rate that Aetna will pay for a service or supply. In these instances; in spite of the methodology described above; the Reasonable Charge is the rate established in such agreement.

In determining the Reasonable Charge for a service or supply that is:

- Unusual; or
- Not often provided in the area; or
- Provided by only a small number of providers in the area.

Aetna may take into account factors, such as:

- The complexity
- The degree of skill needed
- The type of specialty of the provider
- The range of services or supplies provided by a facility; and
- The prevailing charge in other areas.

Sickness: A disease or illness including related conditions and recurrent symptoms of the Sickness. Sickness also includes pregnancy and complications of pregnancy. All Injuries or Sicknesses due to the same or a related cause or that recur within six months are considered one Injury or Sickness.
