Welcome to DeltaCare

DeltaCare is an innovative dental plan that provides you with comprehensive care at a significantly lower cost than most other dental plans—which means great value for you. The plan is unique in its emphasis on preventive services, which are fully covered. DeltaCare works much like a dental HMO, in which you and your family receive all your care from a network of participating dentists. There are no waiting periods for any services. Your coverage begins immediately, so you get the care you need—when you need it.

Using Your Dental Plan

Choosing Your Primary Care Dentist

You and each member of your family covered under DeltaCare must select a Primary Care Dentist (PCD) from the DeltaCare directory.

Please indicate the name and provider number of the PCD in the designated area on your enrollment form. If you do not select a PCD, we will assign one located near your home. To select a PCD, check the **Directory of Participating Dentists** or our website at www.deltadentalma.com. You can also call the DeltaCare Unit at (800) 327-6277.

Shortly after your enrollment, each member of your family covered by DeltaCare will receive an ID card with his or her PCD's name and phone number on it. Coverage is effective for all dependents up to age 26.

To change your PCD, simply call our DeltaCare Unit by the 21st day of the month at (800) 327-6277 and let the representative know which DeltaCare dentist you would like as your PCD. The change will be effective at the beginning of the following month. We will send you a new ID card reflecting the change after it becomes effective.

How Your Plan Works

There's never any paperwork for you to fill out when you visit your PCD or a specialist in the DeltaCare network. Simply provide your dentist with the information that is printed on your ID card. Your dentist will collect any applicable co-payments for services you receive and take care of all the paperwork for you.

When you are in need of specialty services, you may select a specialist from the DeltaCare network or ask your primary care dentist for a recommendation. However, to receive the maximum value from your benefits, you must receive services from a participating DeltaCare specialist.

Out-of-Pocket Expenses

You will be responsible for the co-payments listed on your co-payment schedule, which you will pay directly to the dentist and, where noted, any additional lab fees associated with certain major restorative procedures. Most preventive and diagnostic services are covered at 100%, which means you won't have any additional out-of-pocket costs on these procedures. Please note there is a \$1,000 calendar year maximum on certain specialty services (oral surgery, endodontic services, and periodontic services). If you have reached the maximum amount allowed for these specialty services in a calendar year, the dentist may then charge you his/her usual fee for the services rendered.

Out-of-Network Coverage

(See page 5 for out-of-network orthodontic information.)

DeltaCare provides coverage for out-of-network services; however, the benefits are lower than the coverage we offer when members receive care from a DeltaCare dentist. This means greater out-of-pocket expense for you if you receive services from a non-participating dentist.

\$100 deductible: Members who receive care from non-participating dentists must satisfy a \$100 annual deductible that applies to all services. Each member who receives care from a non-participating provider must satisfy the deductible before receiving benefits.

Reduced benefits: Coverage for out-of-network services is 20% lower than the co-insurance for an in-network DeltaCare panel dentist. This DeltaCare co-payment schedule does not apply to out-of-network services. Out-of-network benefits will be based on either the dentist's charge or the maximum allowable fee for the service, whichever is lower. Coverage is only available for those services covered by your DeltaCare plan, and it is subject to the same limitations and exclusions.

If you choose to receive care from an out-of-network dentist, you'll need to submit a claim form to: Delta Dental, Attn: DeltaCare Unit, PO Box 9695, Boston, MA 02114. We'll reimburse you directly, and you are responsible for making payment arrangements with your dentist. Claims must be submitted to DeltaCare no later than 12 months from the date of service in order to be considered for payment.

Emergency Dental Care

If you need emergency care, contact your PCD immediately. He or she will arrange to get you the care you need. If you can't reasonably reach your PCD (if you are traveling or not in the area, for example) and need emergency care, you should see a local dentist for treatment. You should then contact your PCD to arrange for further care. DeltaCare will provide coverage for emergency services required to reduce swelling, relieve pain, and/or reduce the potential for infection until you can see your PCD for treatment.

Orthodontic Care

We base orthodontic benefits on 24 months of comprehensive treatment. You'll be responsible for the co-payment associated with your treatment, which you'll pay directly to your orthodontist. It's up to you and your orthodontist to make payment arrangements for the patient co-payment.

Out-of-Network Orthodontics

Any care you receive from a non-participating orthodontist will be reimbursed at 20% of the maximum allowable fee or the orthodontist- submitted charge, whichever is less. The \$100 deductible for out-of-network services will apply unless it has already been satisfied.

Termination of Coverage

You will be responsible for paying for any care you receive after your coverage terminates, and up to the submitted charge if you seek out-of-network treatment. It is up to you and your orthodontist to establish the terms and conditions of payment after coverage terminates. However, if you've started an orthodontic treatment plan and decide to continue to receive care from your DeltaCare orthodontist after your coverage terminates, your payments will be based on DeltaCare's discounted case fee.

DeltaCare Orthodontic Exclusions

Your plan does not cover the following:

Replacement of lost, stolen, or broken orthodontic appliances; interceptive orthodontic treatment; retreatment of orthodontic cases; changes in treatment necessitatedby an accident of any kind; surgical procedures incidental to orthodontic treatment; myofunctional therapy; surgical procedures related to cleft palate, micrognathia, macrognathia, or treatment related to temporomandibular joint dysfunctions and/or hormonal imbalance; malocclusions that are so severe they are not amenable to ideal orthodontic therapy; restorative work caused by orthodontic treatment; orthodontic examination and records unless you receive comprehensive treatment; tooth extraction solely for the purpose of orthodontics; orthodontic treatment started before the effective date of your DeltaCare coverage may or may not be covered. Please refer to your Subscriber Certificate.

Frequency Limitations

Frequency limitations reflect the availability of coverage only. It is up to you and your dentist to determine the need and frequency of dental procedures.

The following contains the limitations for some common dental procedures. If you would like more information about limitations on services not included in this list, please contact our DeltaCare Unit at (800) 327-6277, for a copy of your Subscriber Certificate.

Cleanings—not to exceed two cleanings in any 12 consecutive months.

Dentures and Partial Dentures—up to one set per arch once every five years provided the existing set is no longer serviceable.

Fixed Bridges, Crowns, and Other Cast Restorations—up to one restoration per tooth or missing tooth space in a five-year period provided the existing restoration is no longer serviceable.

Denture Relines—up to once per denture in any 36 consecutive months beginning six months after delivery of the denture.

Periodontal Treatments (root planing/subgingival curettage)— up to once per quadrant in any 24 consecutive months.

Bitewing X-rays—based on need, up to one series of four films in any six-month period.

Full-mouth X-rays—based on need, up to one set every 24 consecutive months.

Topical Fluoride Treatment—once every six months for members under age 19.

Space Maintainers—(required due to the premature loss of teeth) for members under age 14 and not for the replacement of primary or permanent front teeth.

Chlorhexidine Mouthrinse—this is a covered benefit only when administered and dispensed in the dentist's office following scaling and root planing.

Fluoride Toothpaste—this is a covered benefit only when administered and dispensed in the dentist's office following periodontal surgery.

Sealants—based on need, for unrestored permanent molars only, once per tooth for members under age 16.

Your DeltaCare provider is responsible for determining the best course of treatment for you. If more than one treatment option is appropriate, you can choose a more expensive option than your dentist recommends. In this case, you will be responsible for the difference in cost between the two options as well as the co-payment for the recommended treatment.

Exclusions

- 1. General anesthesia and the services of a special anesthesiologist.
- 2. Cosmetic dental care.
- Dental conditions arising out of and due to enrollee's employment or for which Worker's Compensation is payable. Services that are provided to the enrollee by state government or agency thereof, or are provided without cost to the enrollee by any municipality, country, or other subdivision.
- 4. Treatment required by reason of war.
- Dental services performed in a hospital and related hospital fees.
- 6. Treatment of fractures and dislocations.
- Loss or theft of fixed and removable prosthetics (crowns, bridges, full or partial dentures).
- 8. Dental expenses incurred in connection with any dental procedures started after termination of eligibility for coverage.
- Any service that is not specifically listed as a covered expense.
- 10. Congenital malformation.
- 11. Cysts and malignancies.
- 12. Dispensing of drugs not normally supplied in a dental office.
- 13. Accidental injury. Accidental injury is defined as damage to the hard and soft tissues of the oral cavity resulting from forces external to the mouth. Damages to the hard and soft tissues of the oral cavity from normal masticatory (chewing) function will be covered at the normal schedule of benefits.
- 14. Cases which in the professional judgment of the attending dentist determines a satisfactory result cannot be obtained or where the prognosis is poor or guarded.
- 15. Dental services received from any dental office other than the assigned PCD's office, unless expressly authorized in writing from DeltaCare.
- 16. Prophylactic removal of impactions (asymptomatic nonpathological).
- 17. Specialist consultations for non-covered benefits.
- 18. Implant placement or removal, appliances placed on or services associated with implants.
- 19. Dental expenses incurred in connection with any dental procedure started prior to the enrollee's eligibility with the DeltaCare program. Example: teeth prepared for crowns, root canals in progress, orthodontic treatment.
- 20. Occlusal guards for bruxism (grinding) or TMJ.
- 21. A method of treatment more costly than is customarily provided. Benefits will be based on the least costly generally accepted method of treatment.
- 22. A service rendered by someone other than a licensed dentist or a hygienist that is employed by a licensed dentist.
- 23. Appliances or restorations necessary to increase vertical dimension, replace or stabilize tooth structure loss by attrition, realignment of teeth, periodontal splinting, gnathologic recordings, equilibration, or treatment of disturbances of the temporomandibular joint (TMJ) are not covered benefits.

- Extensive treatment plans involving 10 or more crowns or units of fixed bridgework are considered full-mouth reconstruction and are not a benefit of the DeltaCare program.
- 25. Tooth desensitization.
- 26. Interceptive orthodontic treatment.

Member Rights and Responsibilities

As a Delta Dental member, you have the right to:

- Be provided with appropriate information about Delta Dental and its benefits, providers, and policies.
- Be informed of your diagnosis, the proposed treatment, and prognosis by your dentist.
- Give informed consent before beginning any dental treatment and be made aware of the consequences of refusing treatment.
- Obtain a copy of your dental record, in accordance with the law.
- Be treated with respect and have your dignity and need for privacy recognized.

You have the responsibility to:

- Ask questions in order to understand your dental condition and treatment, and follow instructions for recommended treatment given by providers.
- Provide dentists with the information necessary to care for you.
- Be familiar with Delta Dental benefits, policies, and procedures by reading Delta Dental's written materials or calling the DeltaCare Unit.

Where to Get More Information

If you have any question, please contact our DeltaCare Unit at (800) 327-6277.

This information should be used only as a guide for your dental plan. For detailed information on your group's plan, riders, terms and conditions, or limitations and exclusions, please see the Subscriber Certificate. Copies of the Subscriber Certificate are available through your benefits administrator.

Member Co-payments for DeltaCare

As a DeltaCare member, you are responsible for the following co-payments when you receive care from your PCD or a DeltaCare participating specialist. All co-payments should be made directly to the treating dentist. Your DeltaCare plan provides coverage for only those procedures listed in this co-payment schedule.

IX. Orthodontic Services — Type IV

Please contact your local DeltaCare Service Team using the phone number listed on the back side of your ID card for a detailed breakdown of the following all-inclusive orthodontic fees.

This comprehensive orthodontic treatment includes initial examination, diagnosis, consultation, initial banding, 24 months of active treatment, debanding, and the retention phase of treatment. The retention phase includes the initial construction, placement and adjustments to retainers, and office visits for a maximum of two years after the completion of active treatment. For treatment plans extending beyond 24 months of active treatment, the patient will be subject to a monthly office visit fee, not to exceed \$75/month.

****** This fee is built into the all-inclusive orthodontic fees listed, but will be a separate co-payment if you choose not to continue treatement with this dentist. The fee includes: records solely for the purpose of orthodontics (pre-records), intraoral-complete series (including bitewings), cephalometric film, panoramic film, tomographic survey, oral/facial images (includes intra and extra oral images), diagnostic casts.

XI. Additional Procedures — Type II, except when noted as (TI) for Type I
