

# Wellesley College Health Insurance Program Information

Beginning August 15, 2015

## Health Services

All Wellesley College students, including Davis Scholars and Exchange students are encouraged to seek services at the Health Service. Students do not need to be covered by the Student Health Insurance Plan in order to use the Health Service. However, the Health Service does not provide services for College guests, dependents, campus visitors, or campus employees.

**The Wellesley College Health Service is open:**

**Monday thru Friday**  
**from 9:00 a.m. – 5:00 p.m.**  
**Appointments**  
**from 9:15 a.m. – 4:00 p.m.**

Students are encouraged to call prior to visiting the Health Service. During semester breaks (winter and spring) students should seek treatment at the nearest facility or provider. If in the Wellesley area and the Health Service is not open, students should go to the MetroWest Medical Center for emergency services.

## Services Available

The services provided by the Health Service are those which are usually available at a primary care facility, including gynecology. The Health Service consists of a state-licensed outpatient clinic, and accredited clinical laboratory, and a Health Education Resource Room. Clinical services are provided by Nurse Practitioners, Registered Nurses and board certified Physicians.

## Health Insurance Waiver and Enrollment Information:

All students enrolled at least 3/4 time are required by Massachusetts State law to enroll in the Student Health Insurance or be covered by a health insurance plan with comparable coverage. **To ensure compliance with Massachusetts law, Wellesley College students, including Davis Scholars are automatically enrolled in and billed for the Student Health Plan.** To read the details on this law, visit [www.mahealthconnector.org](http://www.mahealthconnector.org) and select the policy center and then Student Health Insurance Program.

**Students who do not want to enroll** in the student insurance plan because they are currently enrolled in a comparable plan should complete the waiver form at [universityhealthplans.com](http://universityhealthplans.com). After submitting the waiver form, Student Financial Services will credit the student account for the insurance charge of \$2,004 within 2 business days.

**International students** cannot waive coverage unless they are covered by an insurance carrier based in the United States with coverage comparable to the Wellesley College Student Health Insurance Plan.

**Students who have an out of area HMO** should not waive coverage as those types of plans only provide coverage in the event of an emergency or in your home area.

For questions addressing the waiver/enrollment process please contact University Health Plans at (800) 437-6448. If you have questions regarding the benefits please contact Blue Cross and Blue Shield of Massachusetts at (888) 753-6615. If you have questions about the premium that has been charged to your bill, please contact Wellesley College at (781) 283-2360.

- **Copayments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** (or provider's charge if it is less than the **allowed amount**) for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000 (and it is less than the provider's charge), your **coinsurance** payment of 20% would be \$200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- This plan may encourage you to use in-network **providers** by charging you lower **deductibles**, **copayments** and **coinsurance** amounts. (If you are eligible to elect a Health Reimbursement Account (HRA), Flexible Spending Account (FSA) or you have elected a Health Savings Account (HSA), you may have access to additional funds to help cover certain **out-of-pocket** expenses such as **copayments**, **coinsurance**, **deductibles** and costs related to services not otherwise covered.)

Other limitations on your rights to continue coverage may also apply.

## Questions and answers about the Coverage Examples:

### What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network **providers**. If the patient had received care from out-of-network **providers**, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **copayments**, and **coinsurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

### Does the Coverage Example predict my own care needs?

- ✗ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

### Does the Coverage Example predict my future expenses?

- ✗ **No.** Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

### Can I use Coverage Examples to compare plans?

- ✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

### Are there other costs I should consider when comparing plans?

- ✓ **Yes.** An important cost is the **premium** you pay. Generally, the lower your **premium**, the more you'll pay in out-of-pocket costs, such as **copayments**, **deductibles**, and **coinsurance**. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
